Experiences

IT Support

Sep 2025 – Present

Upsource by solutions at Al Khafji Hospital | Al Khafji, Saudi Arabia | Full time

- Providing technical support and **troubleshooting for end-users**
- Installing and configuring operating systems, applications, and updates
- **Managing and maintaining computers, printers, and network devices**
- Monitoring system performance **and resolving hardware/software issues**
- **Setting up new devices** and ensuring users have the required access
- Documenting issues and solutions for future reference
- Coordinating with technical teams to resolve advanced problems

Call Center with Neom hospital

Apr 2024 – Aug 2025

Rayacx at Neom Hospital | Khobar, Saudi Arabia | Full time

- **Managed over 150 patient calls daily**, including appointment scheduling and inquiries, ensuring timely access to medical services.
- Resolved customer issues with a **90% first-call resolution rate**, directly contributing to higher patient satisfaction scores.
- Communicated fluently in both **English and Arabic**, enabling effective support across diverse patient backgrounds.
- Recognized by supervisors for professionalism and accuracy in handling sensitive patient information.

Coop training program

Aramco | Dhahran, Saudi Arabia | Full time

Sep 2023 - Dec 2023

- I collaborated with IT support teams to troubleshoot and resolve over 30 technical issues, contributing to faster resolution times and improved operational continuity.
- Assisted in diagnosing and resolving technical issues during both in-person and virtual meetings.
- I assisted in **developing and programming the web** pages for the awards program featured on the **EXPEC ARC** building website.
- I enhanced my problem-solving and communication skills while working in a fast-paced, collaborative environment.
